### Never Give Up! I Can Do It!

*Sarah Isabella has the never-give-up attitude and great passion towards learning. She has not passed Maths or Science since primary 3. She is determined to give her all for the final stretch in preparing for her PSLE. This will be the turning point in her life.*

*Sarah Isabella, Primary 6, 2016*

## SYNOPSIS OF THE ULTIMATE PSLE CAMP™

**The Ultimate PSLE Camp™** is a programme like no other. It is the only programme designed and developed from the ground-up to power up the competencies of students taking PSLE in less than 100 days from the end of the camp. It is the only All-in-One PSLE programme that covers all subjects to ensure the maximum aggregate a participant can score to enable him to get into the Secondary School of his dreams.

Each subject (Maths, Science, English and Mother Tongue) will be covered in an impactful, energetic and effective manner, and will be over a full-day of 9.5 hours. Using the latest and advanced methodologies to ensure maximum recall, understanding and competencies in the learning outcomes based on SEAB's syllabus for individual subjects, students will be equipped with both the instructional competencies as well as exam preparedness in ensuring maximum marks from every PSLE question and paper in every subject.

Over four full-days (8am to 5.30pm daily), PSLE Maths, PSLE Science, PSLE English and PSLE Mother Tongue (Chinese or Malay) will be revised intensively in a structured and effective way. The programme will take place during the June 2018 school holidays (2<sup>nd</sup>, 3<sup>rd</sup>, 9<sup>th</sup> and 10<sup>th</sup> June 2018). Breaks and lunch will be provided each day. A whole range of activities which will engage their students' minds and hearts, will be integrated throughout the entire programme based on the highly acclaimed MEALS Kinetics™ framework which includes motivational elements that keep every student going and have the confidence to do well for the PSLE.

Each subject will be covered in one single full-day of 9.5 hours. The following are the components of the camp for the individual subjects:

*\* This camp is non-residential. Every student will return home every day and be present during the sessions allocated for the different subjects.*

*\* Why start at 8am? Do you know all PSLE exams start as early as 8.15am? Training your child to be ready early in the morning helps to condition them for the exam papers. Registration and Administration begins from 7.30am daily. To encourage your child to revise sufficiently and consistently till PSLE is crucial, and this is achieved through proper conditioning of your child's daily routine for the final stretch to PSLE exams!*

## BE PREPARED! PSLE EXAM DATES AND TIMINGS

One of our strategies to help students be well prepared is positive visualisation. It is important to have a crystal vision of when the exams are, and what the exams are all about to help be fully prepared for the PSLE.

## THE FORMAT

The format would mostly be in direct instruction with differentiated materials to cater to students of different abilities. This format is most effective for intensive revision of key concepts and ensuring that students power up their competencies in the shortest amount of time. The ratio of coach: students would be 1:20 with a chief trainer. There would be a series of activities throughout the four full-day camp which are engaging, hands-on and based on learning from inquisitive thinking.

### Direct Instruction
